

# Concrete Batching Plants

**FABO**<sup>®</sup>

# Crushing Screening Plants

# FABO Stationary Crushing Plants

---

**FABO**, which sells crushing, screening and washing facilities to 7 continents, produces the most powerful crushers and sieves in the market. With its low maintenance costs, innovative designs and 17 years of experience, it offers unique solutions to its customers.

**Stationary crushing plants** have advanced equipment that provides high efficiency for mines, quarries and construction projects. Our crusher plants with different capacities are ideal for solutions suitable for every project.

**Stationary crushing plants** can be used for aggregate production in various sizes, for crushing hard mines and ores. To maximize your profits and improve your business volume, like companies around the world, choose FABO crushing, screening and washing facilities.

**Our stationary solutions:** Stationary Stone Crushing and Screening Plants

- Vibrating Bunkers
- Jaw Crushers
- Primary Impact Crushers
- Tertiary Crushers
- Vertical Shaft Crushers
- Cone Crushers
- Vibrating Screens
- Dewatering Screen
- Spiral Washers
- Bucket Washers
- Wobbler Feeder

# Apron Tracked Feeder

**Apron Feeders** are a type of mechanical feeder used to transfer material to a crusher or other downstream equipment at an even rate. They are generally used to feed primary crushers but can be used in primary, secondary and tertiary applications as:

- Primary feeder
- Primary crusher discharge feeder
- Stock feeder
- Rail unloading feeder
- Storage bin feeder

These types of feeders are ideal for handling very hard, abrasive and tough materials that are beyond the scope of other feeders. Designed to withstand extreme impact loading, Apron Feeders can handle larger material pellets and both small and large capacities.

MODEL	Dimension	Motor Power	Speed (RPM)	Capacity	Weight
FCF-0620	600X2000 mm	7.5 kW	1500	150-200 TPH	4000KG
FCF-0925	900X2500 mm	11 kW	1500	200-250 TPH	10000KG
FCF-1135	1100X3500 mm	11 kW	1500	300-350 TPH	12000KG
FCF-1350	1300X5000 mm	22 kW	1500	400-450 TPH	15000KG
FCF-1550	1500X5000 mm	22 kW	1500	500-700 TPH	17000KG
