# FABO Mobile Crushing Plants

---

**FABO**, which sells crushing, screening and washing facilities to 7 continents, produces the most powerful crushers and sieves in the market. With its low maintenance costs, innovative designs and 17 years of experience, it offers unique solutions to its customers.

**Mobile crushers plants** perform superiorly even in the harshest physical conditions and with their flexibility offer numerous advantages to business operating in different sectors. It combines all the equipment that needs to be found in a crusher facility on a single portable chassis.

**Mobile crushers plants** are designed to show high efficiency in the mining industry, waste recycling, and construction activities such as road construction. They are equipped with different crusher types that can meet all kinds of needs such as vertical shaft, crawler, impact and tertiary.

**Our mobile solutions:**

- Pro Series Mobile Crushing Plant
- MCK Series Mobile Hard Stone Crushing Plant
- Mobile Tertiary Crusher
- Mobile Crushing, Screening and Washing Plant
- Mobile Primary Crusher
- Mobile Secondary Crushing and Screening Plant
- Mobile Vertical Shaft Crusher
- Mobile Container Type Jaw Crusher
- Tracked Crusher Plant
- Tracked Screening Plant

# Tracked Scalper Screen

## FSB-15-50 Tracked Scalper Screen

---

**FABO Tracked Scalper** is a crawler screening plant with high mobility, which can be moved in the desired direction with the remote control and it is designed in accordance with all difficult terrain conditions. The material which is transferred to the screen from the Tracked/Conveyor Belt feeding bunker, is screened in 2 different sizes and sent to the stock area with stock conveyor belts. **The Tracked scalper** provides maximum screening performance, works in harmony with crushing plants and is produced by FABO to provide endless customer satisfaction to its users.

**Tracked Scalper Screen** does not require an extra infrastructure as a production method, it is moved with a remote control and adapts to all difficult terrain conditions.

MODEL	FSB-15-50
VIBRATING SCREEN SIZE	1550x4500 mm
CAPACITY	250 - 400 TPH
TOTAL POWER	110 kVA
WEIGHT	30 ton

### Tracked System

The basic element that enables the **Scalper Screen** to move is the tracked (crawler) system. Crawlers carry the entire weight of the crusher. FABO, which does not ignore the importance of the tracked system on the crushing plant, has carried out various R&D studies and has revealed the tracked system that provides maximum durability, low maintenance cost and long-term service to its user in accordance with A1 Quality CE standards.

### Shipping method

**Tracked Scalper Screener** is transported on the lowbed with the help of a tow truck. It is moved by remote control and positioned on the lowbed without the need for manpower.

**Tracked Scalper Screen** takes the shipping position within 5 minutes and saves time for our customers. Furthermore, it prevents superficial wear that may occur during transportation.
