Crushing Screening Plants

FABO Stationary Crushing Plants

FABO, which sells crushing, screening and washing facilities to 7 continents, produces the most powerful crushers and sieves in the market. With its low maintenance costs, innovative designs and 17 years of experience, it offers unique solutions to its customers.

Stationary crushing plants have advanced equipment that provides high efficiency for mines, quarries and construction projects. Our crusher plants with different capacities are ideal for solutions suitable for every project.

Stationary crushing plants can be used for aggregate production in various sizes, for crushing hard mines and ores. To maximize your profits and improve your business volume, like companies around the world, choose FABO crushing, screening and washing facilities.

Our stationary solutions: Stationary Stone Crushing and Screening Plants

- Vibrating Bunkers
- Jaw Crushers
- Primary Impact Crushers
- Tertiary Crushers
- Vertical Shaft Crushers
- Cone Crushers
- Vibrating Screens
- Dewatering Screen
- Spiral Washers
- Bucket Washers
- Wobbler Feeder

Vibrating Screens

Horizontal Vibrating Screen with Gear

FABO Vibrating Horizontal Screens with Gear are superior quality high performance products and have been specially developed by FABO engineers for the screening process.

Thanks to the angle and structure of the screen meshes, blockages and all disruptions that may occur during screening phase are prevented.

FABO Vibrating Horizontal Screens are produced in two to four-decks structures and its mesh size of the screen can be adjusted upon the request of our customers.

DIMENSIONS	2200x6000 mm
DEGREE OF INCLINE	2°
MOTOR POWER	37 kW
SCREEN SURFACE	2200x6000 mm
