FABO[®]

Crushing Screening Plants

FABO Mobile Crushing Plants

FABO, which sells crushing, screening and washing facilities to 7 continents, produces the most powerful crushers and sieves in the market. With its low maintenance costs, innovative designs and 17 years of experience, it offers unique solutions to its customers.

Mobile crushers plants perform superiorly even in the harshest physical conditions and with their flexibility offer numerous advantages to business operating in different sectors. It combines all the equipment that needs to be found in a crusher facility on a single portable chassis.

Mobile crushers plants are designed to show high efficiency in the mining industry, waste recycling, and construction activities such as road construction. They are equipped with different crusher types that can meet all kinds of needs such as vertical shaft, crawler, impact and tertiary.

Our mobile solutions:

- Pro Series Mobile Crushing Plant
- MCK Series Mobile Hard Stone Crushing Plant
- Mobile Tertiary Crusher
- Mobile Crushing, Screening and Washing Plant
- Mobile Primary Crusher
- Mobile Secondary Crushing and Screening Plant
- Mobile Vertical Shaft Crusher
- Mobile Container Type Jaw Crusher
- Tracked Crusher Plant
- Tracked Screening Plant

MJK Series Mobile Primary Jaw Crusher

MJK-110 Mobile Primary Jaw Crusher

MJK-110 Mobile Jaw Crusher is produced on a single chassis as rock feeding bunker, jaw crusher and stock belt.

MJK-110 Mobile Jaw Crusher, which can be easily transported on a single chassis with a hammer, easily crushes hard stones such as Basalt Granite Dolomite Quartz. And sends it to the stock area.

MJK-110 Mobile Jaw Crusher long years of service life for our customers with proven durability. It has been specially designed by our engineers to provide

The MJK-110 Mobile Jaw Crusher is the number one solution for stone crushing, providing minimum footprint and maximum performance in the field thanks to its normally minimized crusher size.

MODEL	MJK-110
PRODUCTION CAPACITY	180 -320 Ton/Hour
MAXIMUM FEEDING	800 mm
ROTOR - INLET SIZE	1100X850 mm
TOTAL MOTOR POWER	150 kW
GENERATOR - OPTIONAL	300 kvA

Jaw Crusher

Jaw Crushers are the starting point of production at the **MJK-110 Mobile Jaw Crusher**. The material poured from the bunker gets crushed into the jaw crusher. Thanks to the hydraulically adjustable jaw opening, the size of the desired product can be changed. It has a robust structure and it serves the user for a long time.

Stones like basalt, granite and other abrasive materials with high silica content can be crushed easily with the **jaw crusher** and it has a direct impact on the capacity of the **MJK-110 Mobile Jaw Crusher**.

It is possible to adjust the **FABO jaw crushers** with the hydraulic adjustment mechanism. This system allows the lower jaw opening to be adjusted easily and quickly according to the product you want to take from the machine

Shipping method

Fabo **MJK-110 Mobile Jaw Crusher** minimizes the time and cash loss of the user with its ease of transportation. The **MJK-110 Mobile Jaw Crushing Plant** developed by our engineers can be easily moved on a single chassis with a truck. Fabo **MJK-110 Mobile Jaw Crusher Plant**, which is moved on axles, is ready for transportation in 10 minutes.

The **MJK-110 Mobile Jaw Crusher**, which we have created as a result of 18 years of knowledge and work, has been designed in the most ideal way for the user with its crushing capacity and easy transportation.

The brake system in the axle system has increased the life and property safety of the user to the highest level and has written its name in the sector with gold letters with 0% accident rate.

Fabo **MJK-110 Mobile Jaw Crusher**, which comes to the transport position without the need for manpower, is the leading crushing plant in the sector with the highest transportation speed.
