# Stationary Concrete Batching Plant

## Pan Mixers

Although it is accepted as an old technology in many European countries, Pan Mixer is still a valid and active solution for Ready-Mixed Concrete production. FABO **Pan mixers** have angular gearboxes.

Thanks to its easily assembled / disassembled design, all sizes can be transported to construction sites in standard Open Top containers or Trucks.

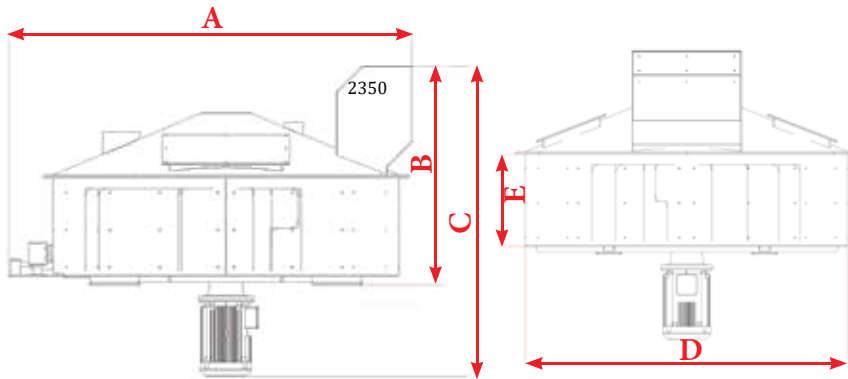

### MIXER SECTION

All FABO **Pan mixers** can be shipped in standard open top containers or trucks due to the separation of the tank by two or more bolted segments. Installation on site is simple and quick as the segments are placed on positioning pins and then bolted together. Tank walls and floor are covered with wear resistant cast plates. They can be lined with Ni-Hard plates upon request.

MODEL	PNM-0,5	PNM-01	PNM-2
WET CONCRETE CAPACITY	0,5 m3	1 m3	2,0 m3
GEARBOX	PDS - PLANET	PDS - PLANET	PDS - PLANET
FEEDING CAPACITY	750 LT	1500 LT	3000 LT
FRESH CONCRETE CAPACITY	625 LT	1250 LT	2500 LT
COMPACTED CONCRETE CAPACITY	500 LT	1000 LT	2000 LT
MOTOR POWER	18,5kW	37 kW	55kW
DISCHARGE TYPE	HYDRAULIC DOOR	HYDRAULIC DOOR	HYDRAULIC DOOR

## MAIN DIMENSIONS

MODEL	A (mm)	B (mm)	C (mm)	D (mm)	E (mm)
PNM- 0,5	2350	1500	2000	2000	700
PNM- 1	2850	1700	2400	2400	800
PNM- 2	3250	1750	2510	2800	800
