**FABO**<sup>®</sup>

# Crushing Screening Plants

# FABO Stationary Crushing Plants

---

**FABO**, which sells crushing, screening and washing facilities to 7 continents, produces the most powerful crushers and sieves in the market. With its low maintenance costs, innovative designs and 17 years of experience, it offers unique solutions to its customers.

**Stationary crushing plants** have advanced equipment that provides high efficiency for mines, quarries and construction projects. Our crusher plants with different capacities are ideal for solutions suitable for every project.

**Stationary crushing plants** can be used for aggregate production in various sizes, for crushing hard mines and ores. To maximize your profits and improve your business volume, like companies around the world, choose FABO crushing, screening and washing facilities.

**Our stationary solutions:** Stationary Stone Crushing and Screening Plants

- Vibrating Bunkers
- Jaw Crushers
- Primary Impact Crushers
- Tertiary Crushers
- Vertical Shaft Crushers
- Cone Crushers
- Vibrating Screens
- Dewatering Screen
- Spiral Washers
- Bucket Washers
- Wobbler Feeder

# Vibrating Feeder Grizzly Bunker

## TBX-25 Vibrating Feeder Bunker

**Vibrating Feeder TBX-25** is mainly used as rock feeder in quarries. **TBX-25**, which has a length of 700 mm and a width of 3000 mm, is the most preferred model in this product group due to its minimal footprint. Our product has the feature of feeding 100 tons of rock per hour and is one of the special construction machines that our company presents with its quality and experience.

Our product is also ideal for durable and long-term use. Furthermore it is produced in accordance with CE standards and does not contain any substance that could endanger human health. We provide 24/7 after-sales support, stands by its customers in all kinds of assembly, disassembly, spare parts, repair and maintenance operations of its products.

MODEL	TBX-25
FREEDER WIDTH	800 mm
FREEDER LENGHT	3150 mm
HOPPER VOLUME	25 m <sup>3</sup>
CAPACITY	100 - 200 TPH
MOTOR POWER	2 x 3.2 kW

### Double Grizzly Feeder

Vibrating Feeder **TBX-25** relieves the crusher group (jaw crusher) by separating dirty and sticky materials even under the most difficult conditions, thanks to its **Double Grizzly Feeder** and in this way the rocks falling into the bunker are optimized in the best way.
