FABO[®]

Crushing Screening Plants

FABO Stationary Crushing Plants

FABO, which sells crushing, screening and washing facilities to 7 continents, produces the most powerful crushers and sieves in the market. With its low maintenance costs, innovative designs and 17 years of experience, it offers unique solutions to its customers.

Stationary crushing plants have advanced equipment that provides high efficiency for mines, quarries and construction projects. Our crusher plants with different capacities are ideal for solutions suitable for every project.

Stationary crushing plants can be used for aggregate production in various sizes, for crushing hard mines and ores. To maximize your profits and improve your business volume, like companies around the world, choose FABO crushing, screening and washing facilities.

Our stationary solutions: Stationary Stone Crushing and Screening Plants

- Vibrating Bunkers
- Jaw Crushers
- Primary Impact Crushers
- Tertiary Crushers
- Vertical Shaft Crushers
- Cone Crushers
- Vibrating Screens
- Dewatering Screen
- Spiral Washers
- Bucket Washers
- Wobbler Feeder

Vibrating Feeder Grizzly Bunker

TBX-35 Vibrating Feeder Bunker

The **Vibrating Feeder TBX-35** is ideal for crushing plants with a stone feeding capacity of 270 tons per hour. These work machines, occupy 1000 × 3750 mm in size. The vibrating feeders contribute to the production with serial material feeding in the new facilities established by the companies working with the understanding of quality service to get high performance.

This product, has 2 vibro motors that work in different directions. It has been designed by our expert team in accordance with European standards. Produced without any harmful substances to human health, our vibrating feeder is also produced in a way that does not harm the environment. You can have TBX-100, which is one of the main products in the crushing section and it is designed and produced based on years of experience that our company possesses, quality products and customer satisfaction, while offering the most affordable prices.

MODEL	TBX-35
FREEDER WIDTH	950 mm
FREEDER LENGHT	4000 mm
HOPPER VOLUME	35 m ³
CAPACITY	200 - 300 TPH
MOTOR POWER	2 x 4.5 kW

Double Grizzly Feeder

Vibrating Feeder **TBX-35** relieves the crusher group (jaw crusher) by separating dirty and sticky materials even under the most difficult conditions, thanks to its **Double Grizzly Feeder** and in this way the rocks falling into the bunker are optimized in the best way.
